Polytech strengthens leadership with Chief Strategy Officer

Polytech is pleased to announce the appointment of Peter Løfgren Ring as Chief Strategy Officer, a newly created role designed to strengthen the company's leadership and drive the execution of its strategic initiatives across the organization.

Peter joins Polytech from his previous role as Vice President Service Solutions at Frontmatec Group, bringing wealth of experience and expertise to his new role.

Since Allan JF Kristensen took on the role of CEO in June 2024, Polytech's leadership team has expanded and includes key areas QHSE, R&D, Finance, HR, Operations, Sales, Service & Support and now Strategy.

"Polytech is a truly unique partner to the wind industry" said CEO Allan JF Kristensen. "As a supplier that is solely dedicated to wind, Polytech has an extensive toolbox and expertise that addresses the most pressing challenges in the sector. It is imperative that we continue advancing this expertise, broadening our array of solutions and deepening our knowledge base."

Peter's appointment underscores Polytech's commitment to innovation and its ongoing mission to remain a trusted leader in the wind energy industry.

About Polytech A/S

Polytech A/S, founded in 1994, develops holistic solutions that improve the durability and performance of wind turbines. These include solutions within areas of lightning protection, leading edge protection, blade monitoring and optimization, transport equipment and storage, and subsea. Headquartered in Denmark and with further locations in China and Mexico, Polytech is now a front-runner in wind power innovation and a trusted partner to major wind turbine manufacturers, asset owners and developers in the wind industry.
